Fall

“Celebrate the Magic-20 Years”

2018

Blossom Wood Celebrating 20 Years

September and October found us moving right along in our new school year. We sadly said farewell to Senor Lizbeth, who relocated to Sweden with her husband and family. The Installation of a new floor in the auditorium gives a nice place for active learning and the delivery of mats purchased by parents are now enjoyed for both Yoga and relaxation!

Grandparents and Special seniors day always fills the building with excitement and fall festival is a Blossom Wood Signature event, with more than half school parents working on the committee and or attending to support the many stations provided.

Our sixth graders are busy visiting independent schools and preparing to take the SSAT for anticipated admissions in the spring. Our wonderful community is busy! We are grateful for wonderful families and attentive teachers who make it all work so well.

Our 20th year celebration will culminate at the St. Louis Children’s Museum-The Magic House on April 6th. The hard work put into each day is surely not magic but the years that reflect our efforts and students who have found success makes the magic of learning a joy for us all.
